## BACKGROUND:

Maureen Grace Haggerty, Allied ASID, has worked in the interior design industry for more than 27 years—the past 10 as the owner of mint.

## DREAM PROJECT:

I believe my life's purpose is to empower others. With every project, I relish helping my clients create beauty, bring joy to their lives, and add value to their homes. Every project, in its own way, is a dream project, but I'd leap at the possibility to remodel a historic home on Summit Avenue and restore it to its original glory from top to bottom.

## BENEFITS OF HIRING A PROFESSIONAL DESIGNER:

Whether you're building a new home, renovating an older home, or remodeling a single room, every design scenario can benefit from an interior designer. Designers translate ideas into smart, informed, effective solutions, help develop plans, and are there to guide you through the process. As an integral part of your project team, your interior designer serves as supportive counsel, providing invaluable experience

and product knowledge. During every step of the way, they will consider both the big picture and minute details, allowing you to relax and have fun with the project. Your designer can transform your wishes into a beautiful and exciting reality.

“The ideal interior designer is someone who cares about you, listens to you, understands what you wish to attain, and has the talent and experience to make it happen. You'll be spending a lot of quality time with this person, so **it should be a rewarding adventure**—not a challenge.”
