SINGULAR LIVING SPACE

(more than 500 square feet)

PROJECT NAME: Balancing Act

FIRM: Mint

DESIGNER: Maureen Haggerty, Allied ASID

DESIGNER'S NOTE:

The challenge was to transform living and dining rooms into a comfortable, cohesive gathering space. The solution uses back-to-back sofas to create two seating areas. Equilibrium is achieved with several thoughtful pairs: two large sofas, two tall chairs, two ornate benches, two game chairs, two swivel chairs, two buffets, two ceiling light fixtures, and two wall sconces. An heirloom game table received a place of honor below framed art. Decorative molding, a custom mineral finish on the fireplace, and a special honed Venetian plaster finish on the ceiling add architectural interest. With an array of subtle colors, textures, finishes, and patterns that provides layered interest and harmony, the room is now a mosaic appropriate for entertaining both large and small groups.
