Owner Maureen Haggerty has spent 30 years designing interiors that her clients gratefully call home. Her keen intuition and strong appreciation of art, color, and textiles are infused within every project. A passion for design enables her to create beautiful, livable interiors that reflect each client's personality and lifestyle. Some of her signature design standards include tailored lines and silhouettes, purposeful scale and proportion, and thoughtful selections of color, pattern, and texture.

Maureen Grace Haggerty,
Allied ASID

The goal of the project featured here was to create an elegant yet approachable lower-level space for a busy professional couple that enjoys hosting family, friends, and business associates. This area will be used for many different activities: poker games, billiards, dining, watching sporting events, and more. Requirements include the capacity to welcome and accommodate both small and large groups, delineate spaces sans walls for multiple activities, and maintain a kid-friendly environment.

Zones within this remodel are connected yet categorized. A see-through fireplace serves as a punctuation of the areas, still providing an open aesthetic. Purposeful ceiling detailing and selective wall treatments and flooring materials serve to define the spaces. Pops of vibrant color add whimsy and accentuate the client's extensive art collection.

Mint collaborates on many genres of design projects, including new construction, remodel to cosmetic revamp, cabin up north to condo in Naples, and everything in between! They can help transform a house into a home.
